

Download app from <https://www.pokerstars.net/>, not pokerstars.com. The platform does not support playing in the tournament from mobile devices. Follow instructions on how to set up your profile.

Once you have registered you will need to accumulate 100k in play chips. As a new player you will be given 35k chips. There are two ways you can accumulate the rest of the chips. You will notice at the top right of the main page a button that says free chips. This will give you 15k in chips. It refreshes every 4 hours. The other option is to buy chips through the cashier. The reason for needing this many chips is to ensure you have enough for registration and rebuys. Each of these activities cost 20k in play chips. If you do not have enough chips you will not be able to rebuy in the game.

Next you will want to join the private poker club. Click on the Home Games tab - Click the 'Join a Poker Club' button - Enter my Club ID number: 3693156 - Enter my Invitation Code: ITisthebest!

Or launch this URL: <pokerstars://home-games/invite/3693156/ITisthebest!>

Once you are approved you will be able to enter the club and register for the tournament. Please send your handle and name to jleshchyshyn@dirtt.com so we can track who is who. Please also send your friend's name and handle if you bring someone into the tournament.

Your registration to the tournament will be paid for through the DIRTT Gives platform <https://gives.dirtt.com/>. Your BUYIN must be paid prior to the start of the tournament. You can

send the tournament link to your friends, but again their BUYIN must be paid prior to the start of the tournament. If BUYIN is not paid prior to cards dealt you will not be eligible for the prizes.

As part of the game play we are allowing up to two rebuys within the first hour of play. Each rebuy will cost \$25 and we will collect after the tournament is complete. As a DIRTT employee you will be responsible for any non DIRTT players you bring into the tournament and their owing fees.

During game play there will be an option on the left side of the table that you can click to auto-rebuy or if you run out of chips you will be prompted to rebuy if you desire.

Game play will be controlled by poker stars with increasing blinds on a timer. As players are eliminated the program will auto reseal players at new tables. Breaks will take place each hour for 5 minutes.

We are going to attempt to provide a video option that will allow players at a table to converse. We will need someone at each table to help in sending out a link/invite for players at that table to join.
